Profile Summary

Versatile developer skilled in **Node.js, Express, JavaScript, TypeScript, React, Java,** and **Python.** Experienced in building full-stack web applications, REST APIs, and performance-focused backend systems. Passionate about clean code and scalable software design.

PROJECTS

Real-Time Multiplayer TicTacToe Game   Live link

• Built an interactive chess game using **HTML**, **TypeScript**, and **Tailwind CSS** for a responsive UI.
• Implemented real-time two-player gameplay with **WebSocket** to handle live communication and game state synchronization.
• Developed robust game logic to enforce move validation, turn management, and game rules.

SMM Panel Platform   Live link

Developed a social media service platform to deliver likes, followers, views, etc., using third party APIs.

Key Features:
• Clean **user/admin dashboard**
• **API integration** for auto delivery
• **Order tracking** & status updates
• **Reseller support** with panel access
• Secure **login/auth system**

Tech Stack: React, Node.js, MongoDB, Tailwind CSS, REST API

EDUCATION

GL Bajaj Group Of Institutions	Aug 2022 - Present
Bachelor of Technology in Computer Science	Percentage: 64.65%
12th Standard	2021-2022
Central Board Of Secondary Education	Percentage: 80.4%
10th Standard	2019-2020
Central Board Of Secondary Education	Percentage: 77%

Technical Skills

Technical Skills: Java, JavaScript, Python
Web Development: HTML, CSS, React, Node.js, Express,Tailwind CSS
Database: MySQL, MongoDB
Concepts: Data Structures, Algorithms
Tools: VS Code, Postman,Git, Github,Docker
Other: GraphQL,Websocket
Profiles:
             Leetcode : 400+ Questions .

Certificates:

• MongoDB Node.js Developer Path– MongoDB University   March-2025
